### Checking if the CUSTOMER NAME field accepts special characters

Preconditions: Have an admin user defined.

Acceptance criteria: the CUSTOMER NAME field accepts special characters is possible

Test Step	Test Data	Expected Result
1. Login with admin user 2. Access Menu - Time - Time screen - tab Project info 3. Click on PROJECTS button + ADD project button 4. Project name field - Enter project name 5. Click on ADD customer button to open the "Add customer" pop-up. 6. Paste a name that has also !@#\$%^&*) into the Customer Name field and try to save	user: Admin pass: admin123	The customer with special chars defined in the name field is saved
